Glossary of Terms

Auditor: one who attends a course as a listener only and does not receive college credit for the course.

Concentration: (1) the centering of a college student's program of study in one department or field of learning in which he does work of advanced grade. (2) a plan of curriculum organization in which one subject, becomes the center and other subjects are integrated with it.

Cumulative Grade Point Average: a numerical figure is determined by assigning numerical values to letter grades received (such as A=4, B=3, C=2, D=1, F=0), multiplying these by the aggregate number of semester hours of the course or courses assigned the respective grades and dividing the total points by the total number of semester hours taken to that point.

Major: a field of major concentration that includes courses from related subjects or departments. At Fort Wayne Bible College this normally varies from thirty to thirty-six hours in a given field of study.

Proficiency test: a test which measures ability to perform some task that is significant in its own right, such as reading French, playing a piano, etc. Since one of the principal uses of such a test is to evaluate the performance of persons who have been given training in the task, these tests are often referred to as achievement tests.

Requirements, Grades, Registration

Registration

Students register for each semester and summer post sessions on the dates specified in the academic calendar of the college catalog. Students may contact the Registrar's Office for information on courses offered and registration details.

Late Registration

Only in exceptional cases will permission for late registration be given. No student may be enrolled after the completion of the first full week of classes. A late registration fee will be assessed.

Class Attendance

Regular class attendance is expected. Each professor will determine his/her own policy for class cuts and absences and will clearly state this policy in each course syllabus. All students are responsible to comply with the policies as stated in the syllabus for each course in which they are enrolled.

Student Load

The normal student load is 16 hours per week. Any hours in excess of this may be granted to students of superior ability through special permission of the Registrar. For the first year, a maximum load is 17 hours. The minimum number of hours to be considered a full-time student is 12 hours. While audit and correspondence courses will be considered in determining the maximum course load for a student, they will not be counted in determining full-time enrollment.

Students on academic probation are advised to carry a reduced number of credit hours.

Auditing

Students wishing to take a course without college credit and without the responsibilities of normally required assignments, may do so as an auditor. No permanent record is maintained in the Registrar's Office and no transcripts are issued. Auditor's tuition fee is one-half the regular tuition rate.

Students wishing to take for credit a course begun as an auditor must change their status at the Registrar's Office within the first week of the semester.

Correspondence Studies

Any student enrolled at the college may also take courses through the Department of Correspondence Studies. A maximum of 32 credit hours may be earned by a student toward a bachelor's degree (10 hours toward an A.A. degree) if approved by their faculty adviser and the Registrar. Correspondence work, however, does not apply toward the minimum thirty hours of resident work required for graduation.

Further details on the correspondence studies program are contained on page 37 of this catalog.

Course Change and Withdrawal

All schedule changes must be made through the Registrar's Office. No schedule change is complete until the drop/add form has been signed by the teacher and returned to the Registrar's Office by the student. A course may not be added to a student's schedule any later than the first full week of the new semester. Courses dropped during the first two full weeks of the semester will not be recorded on the student's transcript. Beginning the third week through the tenth week, all courses dropped will be recorded "W" (Withdrew). After the tenth week, changes must be approved by the Registrar. Any course dropped during this period of time will be recorded either "WP" (Withdrew Passing, no penalty) or "WF" (Withdrew Failing, with grade penalty). Any course dropped within the last two weeks of the semester is recorded with an "F" grade.

Since the college is a member of the Associated Schools of the American Institute of Holy Land Studies, students who participate in the program of the Institute in Israel will be given academic credit in such amount as may be approved by the faculty. Both graduates and qualified seniors may be admitted to the program of the Institute.

FINANCIAL AID & FEES 5

Financial Aid Information

Purpose and Philosophy

The Financial Aid Office at Fort Wayne Bible College recognizes the importance of a quality education at an affordable cost. The primary objective of the Financial Aid Office at Fort Wayne Bible College is to provide financial assistance to students as a supplement to the maximum contribution of the student and his/her family in meeting educational costs. Fort Wayne Bible College recognizes that each student and family situation is unique; therefore, each application is individually and carefully reviewed in the Financial Aid Office.

The Application for Financial Aid

Everyone is eligible to apply for financial aid and all are strongly encouraged to do so. A complete application file for financial aid consists of the following:

- 1) A Fort Wayne Bible College Application for financial aid
- 2) A Needs Analysis document such as the Financial Aid Form (FAF)
- 3) Any other information as requested by the Financial Aid Office

A packet containing all of the necessary forms and information needed in applying for financial aid becomes available from the Financial Aid Office in late December or early January preceding the next academic school year. **Completed applications received in the Financial Aid Office before March 1st for the next school year, will be given priority consideration.** Applications after March 1st are welcome and financial aid is awarded on a first-come-first-served basis as long as funds remain. All personal and financial information presented to the Financial Aid Office is kept strictly confidential.

Eligibility for Financial Aid

Students who have presented their application materials to the Financial Aid Office by the priority date, March 1, will receive notification of eligibility by April 15th. Students who are eligible will at that time be presented an award "package." The Financial Aid Package is a combination of financial sources which may include scholarships, grants, loans and/or employment. The total amount of aid offered may not meet the total financial need but it represents the best and fairest award we can make, based on the information students and parents have submitted and the funds available to the college.

Students will receive an award letter indicating these sources of aid and the amounts offered to them. They will be given the opportunity to accept or reject all or any portion of the aid package. The award letter will include a date by which the student must reply. Students must return their signed award letter indicating their preference about each of the awards offered by the date indicated or the aid package will be withdrawn. When students have returned their completed award letter by the date indicated and after they have actually enrolled in classes, the awards which have been accepted for that semester will be deposited directly to their student accounts, except for college work study monies and national direct student loans.

College work study monies will be paid as the student works for them. National Direct Student Loan funds will be issued by the Business Office to the student. Upon endorsement of the check, the monies will be applied directly to student accounts. The financial aid "package" may consist of any of the following:

Fort Wayne Bible College Scholarships

The following scholarship funds have been established at Fort Wayne Bible College as endowments. Each of these scholarships has specified criteria which a student must meet in order to be considered as a candidate. Some of these criteria involve a student's major, academic

achievement, attitude, trust, standing, etc. Candidates who meet the criteria may be selected by a faculty committee as recipients of these awards which range in value from \$100 to \$1500 per year. The scholarships are awarded during a special chapel program each fall. These scholarships are not on an application basis, but may be part of a financial aid package.

Indiana State Monetary Awards

Students whose parents are Indiana residents should apply by March 1st for Indiana state monetary awards. The amount of these awards may vary depending on the student's demonstrated need during the 1984-85 academic year. The awards generally range from \$200 to \$1800. These awards are renewable by application for four years as long as the student continues to show financial need. These awards are applicable to full-time students only.

Federal Grants and Loans

The Pell Grant, formerly called the Basic Educational Opportunity Grant, is a program of Federal grants to undergraduate students only, authorized by the educational amendment of 1972. Determination of eligibility to receive assistance under this program is **NOT** made by the Financial Aid Office. During the 1983-84 academic year eligible applicants received awards ranging from \$225 to \$1800. Award schedules are subject to change depending on Federal appropriations. Grants are applicable to all full-time and some part-time students.

Supplemental Educational Opportunity Grants

Grants of up to \$1200 per year are available to students with exceptional financial need. These grants may be annually renewed by submitting a financial aid application.

National Direct Student Loans

Through a National Direct Student Loan sponsored by the federal government and administered by Fort Wayne Bible College, students may borrow a maximum of \$3000 during the first two years with four year total not exceeding \$6000. The amount of an award is based on financial need. The loan is deferred interest free while the student is in school. Repayment of the loan must be completed within 10 (ten) years beginning six months after the student graduates or leaves school. The current interest rate is 5%.

Guaranteed Student Loans

Fort Wayne Bible College students enrolled at least half-time may borrow from a participating bank or other financial institution up to \$2500 per academic year. The aggregate loan amount an individual student may borrow is \$12,500. The loan is deferred, interest free, while the student is in school, six months after graduation or leaving school, repayment of the principle begins with an interest rate of 7% to 9%. Additional information can be obtained from the Financial Aid Office.

Auxiliary Loans to Assist Students, Independent Students Only

These loans are available through most banks and other lending institutions. Depending upon the availability of funds, independent undergraduate students enrolled for at least 6 credit hours per term, may borrow under this program. Students may borrow up to \$2,500 per year. The aggregate amount an independent student may borrow is \$12,500.

Although eligibility for this loan is not based on financial need, the amount borrowed during the academic year may not exceed the difference between the student's expense budget and other financial aid received, including guaranteed student loans.

Currently this loan bears a 12% interest rate which starts compounding on the date the loan is dispersed. Repayment of the loan also begins on the date the loan is dispersed with first payment due within 60 days of the loan's disbursement. Maximum repayment period for loans borrowed under this program is 10 (ten) years. Additional information and applications are available at most banks and other lending institutions.

Parents Loans for Undergraduate Students

These loans are available through most banks and other lending institutions. Depending upon the availability of funds, parents of the dependent student may borrow up to \$3000 per year per dependent student enrolled for at least 6 credit hours per term. The aggregate amount a parent may borrow for a dependent student is \$15,000. Although eligibility for this loan is not based on financial need, the amount borrowed during the academic year for a student, may not exceed the difference between the student's expense budget and other financial aid including guaranteed student loans.

Currently this loan bears a 12% interest rate which starts compounding on the date on which this loan is dispersed. Information regarding repayment of this loan is available from the lender. Additional information and applications are available from banks and other lending institutions.

Employment Opportunities

Fort Wayne Bible College recognizes that income from part-time jobs is essential for many students. All students wishing to work for the college must first apply for financial aid through the Financial Aid Office to secure college work study authorization. Fort Wayne Bible College

receives grant support to subsidize a federally sponsored work/study program for students. Work/Study Employment is based on financial need. This program supplies funds for employment on campus. Students may work up to 15 hours a week when school is in session. Total earnings may not exceed the amount to meet educational expenses.

Staying Eligible for Financial Aid

Students receiving financial aid are responsible for the following:

- 1) To use financial aid awarded for expenses related to attendance of Fort Wayne Bible College.
- 2) To inform the Financial Aid Office of any financial aid awards received from sources other than Fort Wayne Bible College.
- 3) To provide requested verification documents promptly. Students who provide inaccurate information at any point will be considered ineligible for financial aid.
- 4) To read all letters, and use all sources of information made available to help the student understand information contained in them. It is expected that students know the appropriate information whether or not they have read the materials.
- 5) To maintain satisfactory academic progress in the student's chosen course of study at Fort Wayne Bible College. Failure to meet these responsibilities may disqualify the student from eligibility for financial aid.

Satisfactory Academic Progress

Every student receiving financial aid must be making satisfactory academic progress toward a degree or certificate.

1. A student is considered to be making satisfactory academic progress when he/she is meeting minimum qualitative and quantitative standards and is maintaining a good academic standing.

- A) For a student completing a total of 1 to 27 credit hours, good academic standing is defined as maintaining a minimum cumula-

tive grade point average of 1.75. For a student completing a total of 28 credit hours or more, good academic standing is defined as maintaining a minimum cumulative grade point average of 2.0.

B) A major area of study is declared by the student upon the completion of 36 credit hours of study.

C) A percentage of credit hours is being completed toward a degree based on enrollment status and degree objectives; i.e., a student enrolled in a 128 hour bachelor degree program must complete 1/12 or 10.67 (11) hours of academic work each semester. The same student enrolled one half time must complete 1/24 or 5.34 (6) hours of academic work each semester. Course incompletes, course withdrawals, course audits and courses failed will not count toward hours completed.

2. He/she has not been placed on "Financial Aid Probation" by the Financial Aid Committee and/or the Financial Aid Administrator.

A student's academic record will be reviewed following each semester to determine if satisfactory progress has been achieved. A student who fails to meet minimum qualitative and quantitative standards toward satisfactory academic progress will be placed on financial aid probation. During this time of probation, the student's eligibility for aid will continue and the student will be expected to meet the minimum standards of satisfactory progress.

A student on financial aid probation who fails to meet the minimum standard of satisfactory academic progress, will have his or her academic record reviewed by the Financial Aid Committee. The Financial Aid Committee will then: 1) continue financial aid probation for one semester if the student has made reasonable progress for the minimum standards, or 2) suspend the student's financial aid eligibility.

A student whose aid eligibility has been suspended could attain the minimum level of satisfactory academic progress by attending post-sessions, attending the subsequent semester, or by completing correspondence courses. No financial aid

will be available to this student during these enrollment periods and enrollment, as at least a half time student, during a regular semester will be considered toward the maximum time framework of aid eligibility.

A student who's aid eligibility has been suspended will have his/her aid eligibility reinstated automatically in the subsequent semester upon meeting the minimum standards for satisfactory progress. For more details on maximum time framework, satisfactory academic progress, and appeal procedures for aid eligibility suspension, contact the Financial Aid Office.

Two other important points to remember: 1) you must reapply for aid every year as it is not automatically renewable, and 2) preference for financial aid is given students who enroll on a full-time basis of at least 12 credit hours each semester.

The College Postal Service will forward *only first class mail*. Students are responsible for sending change of address notices to magazine publishers. Unclaimed magazines will be disposed of by the Mail Room Supervisor.

Student Health Services

Two registered nurses are available on campus to relate to student health. (Hours are posted at the Student Health Center.)

Once each week the College physician is on campus. Students needing to see him should arrange for appointments through the nurses. There is no cost to see the doctor when he comes to campus. Appointments at his office are charged directly to the student. There is a charge for prescriptions.

Insurance

Information explaining the insurance program is sent to each student during the summer, along with a response card that is to be filled out and returned to Fort Wayne Bible College by the date indicated in the correspondence. All students enrolled for eight or more hours are eligible and required to participate in the student insurance program unless evidence of other comparable insurance is furnished. The coverage includes basic hospitalization and medical insurance on a year-round basis. Physical education, intramural, and varsity sports are also covered.

In any case where a doctor's treatment is administered for a specific illness or accident, the student is responsible for paying the initial \$15.00. Any amount beyond that will be covered by school insurance (up to the limit of benefits delineated in the policy). Each illness or accident is considered a separate claim. In cases of repeated treatment for the same illness, insurance coverage continues until treatment has been completed (up to the limit of benefits delineated in the policy). To claim insurance coverage, the student is to submit any or all bills to the Student Development Office. Questions concerning coverage and claims will be answered in the Student Development Office.

Student Services

Character Development

Assisting students in the development of Christian character is one of the objectives of Fort Wayne Bible College. The Character Development Evaluation is designed to identify potential problems as early in the student's college career as is possible. The results of the Taylor-Johnson profile and the MMPI inventory are used during the freshman year to identify possible areas of need.

During the Sophomore and Junior years, Program Directors, faculty members, Student Development, Christian Service, Work Supervisors, and Residence Directors evaluate students relative to progress in Christian character development. Student Development confers with evaluators regarding the indicated students to ascertain appropriate follow-up measures and relates findings to appropriate program directors. No student in the final year is to be barred from graduation on the basis of character development except in cases involving suspension or dismissal or by action of the Faculty Executive Committee.

Church Service and Chapel Involvement

All students taking 8 or more credit hours are expected to attend the following services:

Sunday service: Morning and Evening
Chapel: Monday, Tuesday, Thursday,
Friday (10:00-10:35 a.m.)

Thirty Minutes: Wednesday (10:00-10:35 a.m.)

All services of the Fall and Spring Spiritual Emphasis

Spiritual Emphasis Morning once a month — (8:30-11:30 a.m.)

All students taking 7 or less credit hours who have accumulated 28 or more credits are expected to attend Sunday morning and evening services. Students will be asked to complete a monthly church attendance report on a form provided in their mailbox by Student Development.

Discipline

Disciplinary action at FWBC is viewed as a means of guiding students toward Christian responsibility and maturity. Since such action does not affect the majority of students, details on procedures and appeals are found in the student policy manual available in Student Development offices and at the Library desk.

Vacation Periods

Four Vacation Periods are scheduled by the College during the school year. Fall, Thanksgiving, Christmas (semester break) and Spring Break. Room and board charges include Fall and Thanksgiving vacation. (No meals are served Thanksgiving Day.) Students who find it necessary to remain in town must procure off-campus housing between first and second semester and during Spring Break. Exceptions are handled by Student Development on an individual basis with a written application when unusual circumstances are present. The room charge is \$5.00 per night.

Restricted Items

Incense, firecrackers, and candles are prohibited in College housing due to insurance restrictions and fire prevention. Unlit candles may be used for decorative purposes. The use of electrical appliances is limited because of sanitation, safety and circuit overload. Hot plates, refrigerators, TV sets and sun lamps are not permitted. Other than aquatic species, pets are not allowed.

Cooking is not permitted in the dorm. Irons, popcorn poppers and hot pots are to be used only in laundry rooms and designated areas.

Dormitories

Residence Directors:

There is a Residence Director available on campus at all times in order to assist students, to grant permissions and to resolve emergencies. If the student's own Residence Director is not available another Residence Director may be contacted.

Student Advisers:

Student Advisers are upperclass students selected because of their desire and ability to serve fellow students. As a residence hall staff member, the Student Adviser serves as an assistant to the Residence Director and acts as a communicator and facilitator of ideas and activities in his/her living unit.

Housing For Single Students

All single students taking 8 or more credit hours are to live in a campus dorm if not living with parents. Exceptions are handled by Student Development on an individual basis with written application.

Housing For Married Students

Applications for on-campus apartments may be made through the Director of Student Personnel. Since there is a limited number of these apartments, the College also maintains a list of available off-campus apartments in the Business Affairs Office.

Vehicle Registration

All motor vehicles owned or operated by on- or off-campus students must be registered at the beginning of each semester. This includes cars which are parked on nearby streets as well as cars which are only rarely driven to campus. The act of registering as a Fort Wayne Bible College student obligates the student to abide by College policies while on or in the neighborhood of the campus. Registration stickers, secured from the Director of Student Personnel are to be displayed on the right side of the rear bumper.

Due to limited space, all freshmen, sophomores, students on Academic Probation and off-campus students are to park either behind the Library or Witmer Hall.

Marriage

Students are not to marry during the semester.

Student Records

Information is maintained in the following offices for each student:

Academic	Registrar's Office
Finances	Business Office
Christian Service ...	Christian Service Office
Personal and Cocurricular ...	Student Development Office

The College follows federal regulations concerning the availability and security of these records. Students wishing to see their material may make their request at the appropriate office. Confidential material contained in these records is not released without the student's consent.

Program In Christian Counseling

Joan Mayers, Director

Purpose:
The Program in Christian Counseling is designed to prepare paraprofessional counselors who will be employed primarily by churches and church-related organizations and to offer quality undergraduate training for students who plan to pursue graduate studies in preparation for careers as professional counselors.

- Program:**
1. Prepare paraprofessional* counselors by placing emphasis on:
 - a) Practical knowledge of the Word of God with particular emphasis on principles which are applicable to problems encountered in counseling.
 - b) Basic comprehension of major principles of psychology to provide some understanding of human behavior and pathology.
 - c) A grasp of basic counselor skills and counseling strategies.
 - d) A comprehensive understanding of one's self as a person and a counselor — including strengths and weaknesses and the ability to relate meaningfully both intrapersonally and interpersonally.
 2. Offer quality undergraduate training for students who plan to pursue graduate studies in preparation for careers as professional counselors.

Because of the nature of counseling ministry, all Christian counseling majors will be expected to evidence good mental/emotional health. Therefore, a selec-

tion and retention procedure will be used in determining students' eligibility for graduating from this program.
*Paraprofessional counselors are not considered professional counselors, but are those who either work under the direct supervision of a professional, or who are expected to counsel as a normal part of their vocational responsibilities. The graduates of this program will be employed primarily by churches and church-related organizations.

Program in Teacher Education

Ted D. Nickel, Director

Purpose

The Program in Elementary Education is designed to prepare students for teaching in private Christian, and public elementary schools.

Objectives

The objectives of this program in Teacher Education are to develop students who, 1) have a basic understanding of educational theory, including history of education, contemporary patterns, child development, methodology, and philosophy, 2) understand the educational program of the church, 3) are developing skills in church and church related ministries, 4) express a conviction that teaching is a Christian vocation, 5) who demonstrate basic skills necessary to the art of teaching, 6) are qualified to meet certification requirements of the Indiana State Department of Public Instruction, and 7) have prerequisites for graduate study in education. Fort Wayne Bible College assumes that effective teacher preparation requires more than a good academic standing. Therefore, the

"Teacher Selection Program" is used to evaluate the overall qualifications for teaching. The goals of this program are: 1) to help the student gain a clearer conception of his abilities, 2) to help the student see teaching as a spiritual service, 3) to help the student grow in teaching competence. A special form explaining the entire program is available in the teacher education office. It is introduced to the student in ED 152, Introduction to Education. Since qualifications for teaching certificates vary between states, the student is advised to check the certification requirements of the state where certification will be sought.

Music education degree requirements are described in the Program in Music section beginning on page

Bachelor of Science in Missionary Nursing

The Bachelor of Science in Missionary Nursing is available to students who plan to engage in missionary service as nurses. This program provides preparation necessary to minister to spiritual and physical needs through a combination of courses in general, Biblical, and professional studies.

* Candidates for a B.S. Degree in Missionary Nursing may exercise one of two options in completing their degree work: 1) have an R.N. degree prior to enrolling and then complete two years of study on the Fort Wayne Bible College campus or 2) study at the college for one year, enter a nursing school to obtain an R.N. degree, and then return to campus for one additional year of study. The R.N. degree must be awarded by an accredited school of nursing and Contact between the college and the student is maintained during the period away from campus.

Under either option of study for the B.S. in Missionary Nursing, students follow the standard procedure for application to the college. Students entering FWBC prior to pursuing their R.N. degree may make application to a school of nursing during their first year on campus. Arrangements will then be made for them to take the qualifying National League of Nursing tests. Results of these tests will be forwarded to the Registrar at FWBC and the respective school of nursing. Enrollment at Fort Wayne Bible College does not guarantee acceptance by a school of nursing. Information on schools of nursing operated by hospitals in Fort Wayne may be obtained through the Program Director for World Mission at the college.

A total of 128 hours is required for the Bachelor of Science degree. Sixty-four semester hours are granted for work done at an accredited school of nursing. The distribution of courses in this program is as follows:
